

## Website Design and Development

GalaxyVisions is a privately held Web Hosting, Web Design and Development Company. We are your one stop service center for online businesses, nationwide and worldwide. Our services include web site design, renovations and redesigns, cutting edge flash programming, programming in all scripting languages, complete e-commerce solutions, state of the art web hosting, dedicated servers, remote secure storage for your important data, low cost domain name registration, effective SEO promotion services and more.

We provide online businesses with a one stop reliable source for your online business needs, verifiable references to back up these claims and we can effectively produce any size project for any size company worldwide. Our business differs from the norm when it comes to being capable and creative. We have in house designers and developers that provide the needed expertise in all areas of development. Our programming skills are unsurpassed for all scripting languages including the most popular PHP and ASP.NET languages.

## Website Redesign. Upgrade Your Web Presence Today!

Your site's look and layout gives visitors their first impression of your company's image. A professional and appropriate look to your website is critical to your online presence. Upgrading your website's overall look and feel leads to more credibility which can lead to less page exits and more interest in what your site has to offer.

## Custom Graphic Design

You need to communicate to your customers what your company can do for them. But in order to do that, you need to get their attention first. So how do you make that critical first impression that grabs their attention and gets your message across? The answer lies in the visual presentation of your message -- the "Art". You need quality, custom graphic design from GalaxyVisions to get your marketing materials noticed and complement and strengthen your intended message.

## Logo and Branding Design

GalaxyVisions Web Design Studio provides a team of professional high end web design and development professionals that work hand in hand with our in demand print graphic artists to create your company's branding solution. Before we design anything, we first help companies establish and expand their brand by helping our clients understand their customers and their competition. GalaxyVisions distills the company's core values and product offerings down to a unique brand identity and message.

## Custom E-Commerce solutions

We provide custom commerce solutions such as shopping carts, customized ordering systems and membership systems. We provide merchant accounts through Authorize.NET, PayPal, iTransact and Linkpoint to process credit card payments in real time.

## Search Engine Friendly Web Sites

Our Search Engine Marketing and Optimization services offer your business the best chances of gaining top rankings on the most important search engines. We use effective techniques with a combination of web page optimization and strong linking campaigns to gain the edge over other sites. We are up front and honest, and will not take on projects that we feel that we cannot be effective in achieving top rankings.
